Spectacular Iceland

5Nights 6Days

Day 1 : Welcome to Reykjavik – the beautiful Capital of Iceland

Welcome to Reykjavik. Transfer on your own to your conveniently located hotel. (Check-in on your own after 15:00). Rest of the day is at leisure to explore the city on your own. Overnight in Reykjavik.

Day 2 : Get mesmerized with the Tour of the Golden Circle – visit Þingvellir National Park, Geyser hot springs and Gullfoss waterfall.

Today, visit three of Iceland's most famous spots: Þingvellir National Park, Geyser hot springs and Gullfoss waterfall. Start the day at the ancient Viking Parliament area of Þingvellir National Park, a UNESCO world heritage site. The Þingvellir plain is situated on a tectonic-plate boundary where North America and Europe are slowly tearing away from each other. Next stop is at the Geysir geothermal fields with a variety of hot springs and bubbling pools. Gullfoss, "the golden falls", is a double waterfall that tumbles 34 meters into the Hvítá river originating from the glacier Langjökull. Overnight in Reykjavik. (Breakfast/Dinner)

Day 3 : Onto Vik area. Enroute drive along the scenic South shore of beautiful Iceland

Today, drive along the south coast of Iceland, one of the country's most scenic regions, as far as the Vík area, a charming village surrounded by high beautiful bird cliffs. South Iceland is special for it is one of the flattest regions on the island. Because of that, most of all grain farming in Iceland is done there. The high mountains to the north, shield the area from the harshest winds from the north. We will stop at Reynisfjara black sand beach, with the Reynisdrangar rock formations and columnar basalt. It is one of the most spectacular beaches in Iceland but can be dangerous (guests are requested not to go too close to the ocean and go by guidelines only). Among the stops on this tour are at the gorgeous Seljalandsfoss and Skógafoss waterfalls. Seljalandsfoss is part of the Seljandsá river, which has its origins in Eyjafjallajökull glacier. What makes Seljalandsfoss so famous and interesting is that you can walk behind it (walk behind the falls can be done on your own, recommend guests to carry either a raincoat or a waterproof coat along if you want to walk behind the fall). Overnight in Vik area. (Breakfast/Local Dinner)

Breakfast,Dinner

Day 4 : Onto Reykjavik. Visit Iceland's largest glacier - Vatnajokull National Park.

Today, proceed to Vatnajokull National Park - Iceland's largest glacier and witness plenty of its outlet glaciers cascading to the lowland. Jökulsárlón Glacier Lagoon belongs to the Vatnajökull glacier. Huge blocks of ice (more than 1,000 years old) are continually breaking from it and large chunks of iceberg float in the lagoon. The ice-chunks take on so many forms and colours, ranging from transparent, to white, to the most amazing blue colour - some of the ice is black, it is like visiting an art gallery. Overnight in Reykjavik. (Breakfast/Dinner)

Breakfast,Dinner

It is the highest church in Iceland at 74.5 metres high.
